Task Order No. 2
Amendment No. 2

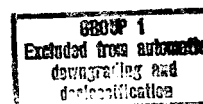

Gentleman:

Reference is made to subject Contract, as amended, entered into between the parties hereto as of 22 June 1965 which called for the design and the fabrication of two prototype Modulated Light Film Viewing Tables.

In order to arrive at a final Contract price, the estimated cost of this Contract is increased by the sum of

All other terms and conditions of the said Contract shall be and remain the same.

TITLE _____

4 April 1967

U. S. Government
Washington, D.C.

Attention: [redacted]

Subject: Modulated Light Film Viewer

[redacted]
Task Order No. 02 (100,677)65R

Gentlemen:

The Modulated Light Viewing tables were shipped as we indicated in our March 2, 1967 letter. Delivery was made on March 9, 1967 to your [redacted] Receiving Dock No.2.

In line with our discussions, during the January 24, 1967 meeting we are now enclosing two (2) copies of the Operator Instruction Manual [redacted] and three (3) copies of our invoice in the amount of [redacted] dated March 15, 1967 covering the Packing and Shipping costs. We request that payment of this invoice, which is pursuant to Article 31 of the subject contract, be sent to our [redacted] address.

If the Government wants assistance in reassembling the table we still would be glad to help on a time and material basis. Just let us know.

To our best knowledge, all contractual requirements on the part of [redacted] now have been completed. But, as we previously offered, should the Government require additional information in order to equitably solve the increased cost problem, we would hope to hear from you.

Very truly yours,

[redacted] Manager
DOD Contract Administration

Gentlemen:

25X1
Confirming negotiations held 16 June 1965 between your organization and [] the basis of agreement for the Image Perceptibility Improvement Program is outlined herein.

The program shall be comprised of three (3) Task Orders whose summary titles are:

- TASK ORDER 2 Modulated Light Film Viewing Tables
- TASK ORDER 3 Processing Techniques - Photographic
Processing Techniques - Electronic
- TASK ORDER 4 Spatial Frequency Analyzer

Task Order 2 [] Proposal Nos. 64034-B and 915031-A (Modification)

25X1

25X1
[] will proceed with technical efforts in accordance with Proposal No. 64034-B and the modification, dated 4 January 1965 and March 8, 1965 respectively, to build two (2) prototype light tables. The R&D study proposed as Task II in letter dated 4 January 1965 and Item II Price Analysis Summary No. 64034-B has been deleted from the negotiations on this particular effort.

In regard to the illuminated area, the position of the reduced raster will be controlled, at the option of the operator, either by a "joy stick" centering control or by the position of the microscope.

The design of the viewing table will provide for avoidance of film scratch during film transport.

U.S. Government

-2-

24 June 1965

25X1 The first prototype viewer shall be delivered in four (4) months from date of contract. [] now requests that this be 4½ months because of a two week plant shutdown for vacations in July.

25X1 Preliminary Test and Acceptance shall be performed at [] facility by technical representatives of the Contracting Officer.

Final Test and Acceptance shall be performed at customer's installation after delivery.

Delivery instructions will be furnished by Contracting Officer.

The second prototype viewer shall be delivered in five (5) months (now requested to be 5½ months) from date of contract, subject to final test and acceptance at []

25X1 25X1 [] This piece of equipment shall then remain at [] and become GFE to the contractor for continuation of work on other Tasks of this program.

Four (4) Monthly Progress Reports will be furnished. Preliminary Instruction Manuals will be included, at time of delivery of first prototype viewer in 4½ months. A Final Instruction Maintenance Manual, including all changes to first and second prototype will be furnished six (6) months after date of contract.

Task Order No. 2 shall be on a Cost-Plus-Award-Fee (CPAF) basis as follows:

Adequate Performance	8% fee base
Good Performance	10% fee award
Superior Performance	12% fee award

25X1 Task Order 3 [] Proposal No. 915908-B and letter of Clarification dated May 26, 1965

25X1 [] will proceed with technical efforts in Processing Techniques based on Photographic and Electronic Feasibility Studies in accordance with subject proposals. (The Spatial Frequency Analyzer is to be covered separately as Task 4).

U.S. Government

-3-

24 June 1965

A breadboard model of an electronic film reproducer will be designed and constructed.

The light box required in the electrophotographic technique study will be supplied as GFE within 30 days of contract date.

Twelve (12) Monthly Progress Reports will be furnished.

Two (2) Interim Technical Reports will be supplied with the first report due at the end of the fourth month and the second report due at the end of the eighth month.

A Final Report will be supplied thirteen (13) months from date of contract. Task Order No. 3 shall be on a CPFF basis and carry a 10% fee.

Task Order 4 Spatial Frequency Analyzer

A breadboard analyzer will be designed and fabricated by AED in conformance to Proposal No. 915908-B, Figure 9 and pages IV-1; IV-2; IV-3.

Twelve (12) Monthly Progress Reports will be supplied.

One (1) Interim Report will be submitted eight (8) months after date of contract.

A Final Report will be issued thirteen (13) months after date of contract.

Task Order No. 4 shall be on a fixed price basis.

Three (3) copies of confirming Price Analysis Summary are enclosed reflecting the negotiated values as follows:

<u>Task Order</u>		<u>Fee %</u>	
#2		8% Base or 10% Award or 12% Award	
#3		10%	
#4			

U.S. Government

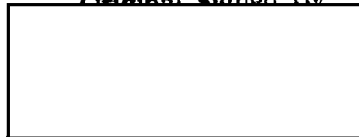

-4-

24 June 1965

Certificates of Current Pricing are enclosed for the three (3) task orders.

If the above does not concur with your understanding of our agreement, or if there are any questions on these matters please call me.

Very truly yours,
